... since 1903

AGROMECK CHRONICLES GENERATIONS OF NC STATE STUDENTS.

First published in 1903, the Agromeck Year in Review is NC State's official yearbook and the University's oldest on-campus student publication.

The book records the history of each school year, documenting student life, sports and academics from a student perspective. The Agromeck's name references NC State's origins as North Carolina College of Agriculture ("Agro") and Mechanic Arts ("meck"). The yearbook is 300+ pages of interesting photos and articles that document not only the traditions of NC State, such as Homecoming

and Wolfpack Welcome Week, but also what makes each year unique.

Graduating seniors have the opportunity to have their portraits in the book. The Agromeck can be purchased for **\$68.25**, with a discount for students who are members of the Student Alumni Association.

Since 2009, the Agromeck has won four Pace-maker and five Crown **awards**, four Gold and one Silver. The Pacemaker and Crown are two of the highest honors awarded to college yearbooks across the country.
